Product Use

2-point full body harness for use with a fall arrest device and suitable anchorage point. The robust Miller Revolution harness is ideal for scaffolding, steel erection, tower building and maintenance thanks to the unique Revolution technology and a multitude of key features. The PivotLink™ connections are located at waist level for a better ergonomic fit when bending or squatting.

Features & Benefits

Feature

Made from Duraflex® webbing, the R2 Comfort Revolution harness is ideal for scaffolding, steel erection, tower building and maintenance thanks to the unique Revolution technology and a multitude of key features. The PivotLink™ connections are located at waist level for a better ergonomic fit when bending or squatting. Fitted with quick-fixing buckles.

Benefit

PivotLink Connection (patented): This unique rotary design provides greater comfort in bending / mobility. Positioned at waist level to mirror the bending and squatting movements of the worker in construction and maintenance. Provides attachment point for tools and accessories. Made of stainless steel for corrosion resistance.

ErgoArmor Back Shield: this semi-flexible back shield minimizes impact from sharp / heavy snap hooks and self retracting lifelines. The self-adjusting channels conform to a variety of body shapes. The padding conforms to unlimited back contours while allowing superior air flow. A knitted mesh membrane minimizes moisture absorption and maintains an optimal air

R2 Comfort Revolution - DuraFlex - Size S/M - 1014236

circulation whilst also helping to position the back D-ring correctly.

Self Contained Label Pack (patented): encapsulates labels minimizing damage and loss. Durable, polymer construction for extended service life. Integrated and oversized pull-free lanyard rings.

Cam Buckle (patented): Easy, one-hand adjustment / release allows simultaneous adjustment of shoulder straps. Promotes proper snug fit; will not slip or misadjust. Constructed of high-tech polymer, lightweight aluminum and stainless steel materials that resist rust/corrosion.

Web Finials (patented): Clip-on design safely organises webbing after proper adjustment. Constructed of durable, high-impact resistant polymer. Provides positive gripping surface for easy web adjustment.

Integrated Accessory System: Modular attachment design provides connection points for tools & accessories which can be easily attached/removed for greater comfort and convenience. Designed to distribute the weight of accessories across the hips and shoulders for comfort and mobility.

DuraFlex® Webbing : Patented, elastomer webbing specially formulated to stretch with the user's movements so there is no bunching or binding.

Custom Identification: Four brightly coloured permanent labels allow customisation for date of service, specific trade, sub-contractor etc. A write in window allows space for individual names or other information.
